Closures & Components Guide

Lids, Caps, Rings & Matching Components

Technical guide to our closure systems — screw caps, lug caps, press lids, crown corks and matching component kits.

Metal & glass packaging manufacturer and exporter — aluminum tins, metal closures, glass jars and matching components. Custom printing and bulk supply.

1. Closure Types

Type	Neck size	Material	Application
Screw cap	38 / 43 / 48 mm	Aluminum / PP	Jars, bottles, tins
Lug cap	63 / 82 mm	Tinplate	Glass jars, preserves
Press lid	52-120 mm	Aluminum	Tins & containers
Crown cork	26 mm	Tinplate	Beverage bottles
Flip-top lid	Custom	Aluminum / plastic	Dry goods dispensers

2. Compatibility

Every closure is tested against our container range for seal integrity, drop resistance and vacuum retention. Matching component kits pair a container with the recommended lid, gasket and shaker insert.

3. Gaskets & Sealing

PE foam, EPE, silicone and induction seals are available to meet leak-proof and tamper-evident requirements. All food-contact materials are FDA and EU 10/2011 compliant.

4. Customisation

Closures can be printed, embossed or anodised in custom colours. Tooling is available for bespoke thread profiles and neck diameters.
